Albina Asllanaj

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a proven track record of creating and implementing successful front end web applications. Looking to bring my skills to a forward-thinking tech company and contribute to innovative projects that push the boundaries of web development.

WORK EXPERIENCE

Web Developer and Project Lead at WebServes

October 2022 — Present

- Crafted and constructed the website's front-end
- Using React.js, designed and implemented responsive pages
- Developed Themes, custom posts, and generating plugin
- Converted layout and wireframes into functional HTML pages
- CSS and API integration for enhanced UI functionality
- Monitored project performance and code quality.

Recent Projects:

Networks of Change– Social justice organization where I played a crucial role in revamping the website by creating site maps, designed wireframe, and developed pages while also troubleshooting issues that arose. I ensured tasks were clear and distributed effectively among the team, keeping us on track to meet deadlines.
Tools Used: *JavaScript, APIs, HTML, CSS, WordPress, PHP, Figma, Themes, Plugins, SEO, Google Sheets, Freedcamp*

Travelia– Responsive web application designed for seamless travel exploration. API integration to enhance features like real-time maps, user reviews, and social media sharing capabilities. Crafted to ensure a dynamic and user-friendly interface.
Tools Used: *JavaScript, HTML, CSS, GitHub, APIs*

Shopper–React.js-based e-commerce website that is SEO friendly and responsive letting users to add products to cart and complete the checkout process. Allows users to create accounts and store details
Tools Used: *React.js , APIs, Node, HTML, CSS, GitHub*

Other Projects: Popcorn Preview, Waves Music App, COVID-19 tracker, Meditation Station, Recipe Finder, etc.

Design Project Manager at Castle Home Improvement

January 2019 — January 2023 **Design Project Manager**

Developed architectural plans, layout designs, client contracts, and managed labor expenses using sale data analysis. Managed a workforce of 12-20 team members to ensure the timely execution of projects. Primary point of contact for meeting with prospective clients and lead negotiator.

March 2017 — January 2019 **Executive Assistant**

Streamlined cross-functional troubleshooting to uphold project schedules, implemented Excel-based management system, handled financial transactions, including bills and invoices, and provided training for new hires to enhance team productivity.
