Albina Asllanaj

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a proven track record of designing and implementing successful front end web applications. Looking to bring my skills to a forward-thinking tech company and contribute to projects that embrace innovation in web development.

WORK EXPERIENCE

Web Developer and Project Lead at WebServes
October 2022 — Present
- Crafted and constructed the website's front-end
- Using React.js, designed and implemented responsive pages
- Created site maps, wireframes and mock up designs
- Converted layout and wireframes into functional HTML pages
- CSS and API integration for enhanced UI functionality
- Monitored project performance and code quality.

Frontend Developer at EZ Corporate Clothing (eCommerce)
August 2021 — August 2022
- Customized and developed Shopify themes and templates
- Implemented Shopify apps/extensions to enhance functionality
- Optimized website performance for fast loading and smooth user experience
- Wrote clean JavaScript code for interactive user interfaces.
- Identified improvements to increase conversion rates
- Ensured product listings were SEO-optimized for improved organic search visibility

Student Software Engineer at SheCodes
February 2022 — December 2022
Acquired valuable insights into programming languages and development tools, successfully completed complex React projects, and actively collaborated with team members. Engaged in monthly coding challenges, enhancing proficiency in JavaScript.

Recent Project:
Networks of Change– Revamped a social justice organization's website, utilizing Figma for design, WordPress for content management, and enhancing functionality with JavaScript, CSS, and APIs. Addressed troubleshooting, optimized SEO, and organized team tasks to meet deadlines. **Tools Used:** *JavaScript, APIs, HTML, CSS, WordPress, PHP, Figma, Themes, Plugins, SEO, Google Sheets, Freedcamp*

Design Project Manager at Castle Home Improvement
January 2016 — January 2021 **Design Project Manager**
Developed architectural plans, layout designs, client contracts, and managed labor expenses using sale data analysis. Managed a workforce of 12-20 team members to ensure the timely execution of projects. Primary point of contact for meeting with prospective clients and lead negotiator.

March 2014 — January 2016 **Executive Assistant**
Streamlined cross-functional troubleshooting to uphold project schedules, implemented Excel-based management system, handled financial transactions, including bills and invoices, and provided training for new hires to enhance team productivity.
